Note: All prices and details are listed on our [web site click here...](#)

Web Services Provided –

- **Web Development**

- Please call for a **no obligation consultation...** Each client’s needs are different and we always adjust our fees to meet the client’s web design needs. We welcome your phone call or [e-mail](#).
 - We utilize highly [professional graphic design themes](#) to help you develop a **High IMPACT – AFFORDABLY PRICED professionally designed site that has the LOOK and FEEL your business needs!** Hundreds of themes to chose from at reasonable prices...
 - We work with you via e-mail, phone, and GoToMeeting to make sure your web site meets your needs. We will push you to complete your project you will not have to push us.
 - Developer communication; We make sure that you have access to our developer so your project stays on track from imaging through content and messaging. Your look and feel along with the right message must be delivered properly and we work with you to get your project done to your satisfaction!
 - All of our web development projects are “cross browser” compatible. Simply, you can view our designs with any browser. Additionally, we make sure that your site SEO ready. SEO stands for “Search Engine Optimized.” We setup your meta-tags to be in compliance with all major search engines for better ranking.
 - Check out this happy client **The Marmalade Toque Catering & Café**. 12 days after finishing their site, the owner, Chef Gary reported back to us that his site is ranking #5 and #1 on the organic web site in Google. [See Our Work Click Here!](#)
 - **Fee Examples & Getting Started – [Click Here](#)**
- **Web Hosting**
 - Have a site and need to change Host Providers? **We recommend that you use GoDaddy.com [Click here](#)** to see details on their hosting packages. Not sure where to get started? Join our **VIP CLUB** and we’ll handle the process for you!

- **Join The "VIP CLUB"**

- If you have a web site or if we build one for you, you may need ongoing page changes and additional services.
- **Here's what you receive:**
 - Up to **2 Full Web Page Changes Monthly** and a **Secured Anti-Spam Contact Form**
 - Free one hour "**Creative**" consultations every month as needed
 - **Sub-Domain Creation** – a sub domain that identifies a specific directory within your site. **Example: <http://support.YourDomainName.com>**
 - **Domain Forwarding** – you may want a URL forwarded to a different web address location:
Here's an example – <http://mytools.myisystem.com/trends.php> (**Too Long**)
Easier to remember– <http://www.myaimtool.com> (**A lot better**)
 - **Domain Masking** - You may want to hide a domain name behind a different name.
 - **Need assistance registering a domain name?** We'll help you get the job done because you're a **VIP CLUB Member!**
 - **All of this and more at no additional charge!** [Details Here](#)
 - **Interested? Please contact us at (951) 691-1220 or [click here](#)**

***Note:** The only fees you would be responsible for are those imposed by hosting third party services like GoDaddy.*

- **Secured "Anti-Spam" Web Contact Me Form Development**

- Are you tired of people going to your web site and filling in your contact form with bogus information? We can create a "Secured" form where they have to fill in a code to contact you. This is really helpful because it stops spam robots in their tracks. You only receive e-mails from real customers who need your help or service! **NO CHARGE WHEN YOU'RE A VIP CLUB MEMBER!**
[Here's a LIVE Example!](#)

- **E-mail Auto-Delivery Newsletter Service**

- We setup your e-mail template for you and prep your autoresponder system through one of our partners and cue your newsletter to be auto-delivered each month. Just provide us with content and any pictures via e-mail. To see an example of our work [click here](#) and send an e-mail to our clients system. If you would like an **HTML (Graphic based)** newsletter to go out with a **plain text backup**, we can set this up for you. This is called a "**Multi-Part**" **delivery system**. Our "**intelligent delivery technology**" will insure that your Multi-part newsletter gets to your clients and/or customers every month! In essence we are creating, for you, two versions of your newsletter, a graphic based newsletter and a plain text version. [Details Here](#)

- **Ecommerce Online Store**
 - Need to showcase your products and allow people to purchase them online? We use the best ecommerce/shopping cart solutions on the net today. Our system is built on the EBAY backbone. Check out ProStores.com .
 - We build it and make sure it's all working and tie in your merchant services to the online credit card systems. [Details Here](#)

Video Services Provided –

- **Turn PowerPoint Presentations into Video**
 - [See My Work](#) – I piped the presentation through my computer systems and digitized the presentation and turned it into a swf motion video. It also uploads into YouTube nicely. Professional quality made for the web and cross browser compatible!
- **Edit and Render (Format) Services**
 - Edit out frames and create focus points
 - Add sound
 - Add frame transitions
 - Smart Focus frames – **Example of Smart Focus and Zoom in capability within your video** [Click Here To See a LIVE Sample Video](#)
- **Decoding, Rendering and Editing Services**
 - Convert/Edit Video: AVI to HD, MOV, iPhone, iPod, Blog Ready, DVD Ready, MP4, FLV and SWF Motion Picture, CD and Web Ready. We can also import and work with these video files: swf, mp4, mpeg, mpg, wmv, swf and mov.
 - Prep video for YouTube Upload (Mp4 to FLV)

Audio Services Provided –

- **Encoding Services**
 - We can encode just about any audio file. If you want and audio file changed from wav to wma or to Mp3 or to ogg, aif, aiff, flac or m4a, just about any type of audio format we can handle altering and re-encoding for you.
- **Editing Services**
 - Ask us about our conference call recording services that includes clean up.
 - If you have an audio file that has noise or hiss we can remove and clean up the file for you. Here's an example of a really bad audio file we cleaned up for a company (CSI):
 - Before Clean up – [Click Here to Listen](#)
 - After Clean up – [Click Here to Listen](#)

- **Colorized Play Button Technology**
 - If you have a sound file and you would like it to play on your web site with a colorized (To match your site) play button, play, stop, pause, rewind and fast forward we provide that service as well and will also e-mail the MP3 file to you.
 - See our example of colorized play buttons: [Click Here to View](#)
